 - Or Internal Analytics
 - Use 3rd party data tools to verify conversion rates
 - Conversion to a page goal (in client site) or to a sale

Relevant Financial Questions

 - Brand building
 - Awareness -> Interest -> Desire -> Research/Comparison ->
 - -> Purchase Decision -> Payment -> Thank You -> Repeat Buy
 - Lifetime Value of a customer (LTV)
 - A repeat sale is cheaper to produce than a new sale
 - Loyalty programs (Email marketing, promotions...)

Relevant Financial Questions

- What keywords should we target when confronted with a very low CPC BEP?
 - Long tail keywords
 - Combination of high CTR and high conversion rate

Break-Even Point Analysis

Metric	Value
Avg. CPC (cost per click)*	\$1.00
Conversion Rate	5.00%
Avg. Sale Value	\$60
Profit Margin	15%
Life Time Value (LTV)	\$180

PPC Conversion Cost = **\$1.00** / .05 = \$20

Profit Margin per Sale = \$60 x .15 = \$9

BEP CPC per Avg. Sale = \$9 * .05 = **\$0.45**
(what we should be spending per click for one sale)

BEP CPC for LTV = \$27 * .05 = **\$1.35**

*Based on an average of 3 sales per customer over lifetime

Snackable content is made for the on-the-go consumer who needs answers to their questions at a moment's notice. When done right, snackable content leaves the consumer hungry and eager for more.
